ABOUT THIS MODEL

The UDT Dump Trailer is available from 5' to 7' wide. These heavy duty dump trailers feature a 45 degree dump angle, making them excellent work trailers. We want to make sure that our dump trailer has the reliability busy professionals need from their equipment. Our UDT series dump trailer features 24" formed steel walls, heavy duty treadplate steel fenders, and multi-leaf spring axles. They work hard so you don't have to. UDT's also feature LED lights. Add the optional spreader gate to add even more versatility. Don't let the small size of the 5 wide Utility Dump trailer fool you. They're capable of hauling over 4500 pounds. Available as a 6x10 with 7000# gross weight or 6x12 with 9990#, these utility trailers are capable of towing up to 7390 pounds. The 7 wide tandem axle is available in lengths from 10 to 16 feet with a maximum payload of 9800 pounds.
