## ABOUT THIS MODEL

The UDTDO Flatbed Dump Trailer has a 96" bed placed over the wheel wells. The fold-down, dust proof, removable steel side walls add versatility to this flat bed trailer. The configurations possible with this utility dump trailer will certainly increase productivity on the job. The UDTDO flat bed trailer is available 8.5x14, with a GVWR of 14000 pounds (tandem 7000# multi leaf slipper axles with electric, self-adjusting brakes), and payload of 9600 pounds standard. All UDTDO models are equipped with radial tires, 6'6" slide-in ramps, and all LED lights. The scissor hoist provides a 45 degree dump angle. Hooking up to the trailer is easy with the 2-5/16" adjustable coupler and heavy duty, 7000 pound drop leg jack. The trailer frame is comprised of 8" I-beam and a 6" x 2" tube tongue with 16" cross members. Options available include d-rings, torsion axles, roll tarp kit and wireless remote.
